TBarCode/SAPwin

Barcode DLL for SAP®

SAPlpd, SAPsprint, SAPWIN

Bar Code Extension for SAPlpd, SAPsprint, SAPWIN.DLL

Bar Code Printing for all Printers

Barcode Printing for SAP® Systems

TBarCode/SAPwin offers device and release independent bar code printing for SAP® systems.

The product integrates seamless into the SAP® printing process. It enhances all printers, which are used with SAPlpd, SAPsprint or the SAPWIN.DLL with bar code functionality.

Printer Independent

TBarCode/SAPwin is 100% software. It adds bar code functionality to all printers. Printer manufacturers or printer models are no longer relevant. Upgrading printers with cost-intensive extensions like SIMMs or DIMMs is not required.

Easy Installation and Deployment

TBarCode/SAPwin is installed with a few mouse clicks as an extension to SAPlpd or SAPsprint. In addition, automatic enterprise-wide deployment or server-based installations are of course supported.

All Barcodes

TBarCode/SAPwin generates more than 100 barcode symbologies. Linear barcodes, GS1 DataBar, composite barcodes and 2D barcodes with high data density are printed on demand.

The broad range of barcode symbologies makes *TBarCode/SAPwin* the ideal add-on for all printing tasks. All business or industry requirements are covered.

Simple Maintenance

The most common barcodes are already pre-defined by SAP®. As long as only those barcode types are used, no additional configuration efforts are required. Adding or changing barcode print controls is possible within minutes.

No SAPscript Changes

The use of *TBarCode/SAPwin* does not force the user to change existing Smart Forms, ABAP™ or SAPscript® reports.

Highlights

Cost Savings

- *Minimal Cost of Ownership*
  The transparent licensing scheme enables customers to put a cost effective bar-coding solution into operation.
- *Absolutely Printer and Hardware Independent*
  TBarCode/SAPwin turns virtually all printers available on the market into full-featured bar-code printers. You are not bound to specific printer models or manufacturers anymore.

Operation and Maintenance

- *Easy to Install, Easy to Maintain*
  Simply install TBarCode/SAPwin on your computers. No printer upgrade or maintenance is required.
- *SAP® Release Independent*
  TBarCode/SAPwin is installed as an extension for SAPlpd or SAPsprint. The release level of the application server (SAP® R/3®, mySAP® ERP, SAP® ERP/ECC) is irrelevant.

Barcodes

- *All Barcodes: Linear, 2D, GS1, Composite*
  PDF417, MicroPDF, DataMatrix (ECC200), MaxiCode, QR-Code, Codablock, EAN-UCC-Composite, RSS, GS1 DataBar, HIBC Codes, Aztec, ...
- *Unified Barcode Interface*
  TBarCode/SAPwin unifies bar-coding among different printer models. No device-specific configuration is required.
- *Perfect Barcode Quality*
  TBarCode/SAPwin generates barcodes in perfect quality and readability.

In World-Wide Use
