

TBarcode/SAPwin

Barcode DLL for SAP®

SAPiPd, SAPsprint, SAPWIN

Bar Code Extension for
SAPiPd, SAPsprint, SAPWIN.DLL

Bar Code Printing for all Printers

Barcode Printing for R/3®

TBarcode/SAPwin offers device and SAP® R/3®-release independent bar code printing.

The product integrates seamless into the SAP® printing process. It enhances all printers, which are used with SAPiPd, SAPsprint or the SAPWIN.DLL with bar code functionality.

Printer Independent

TBarcode/SAPwin is 100% software. It adds bar code functionality to all printers. Printer manufacturers or printer models are no longer relevant. Upgrading printers with cost-intensive extensions like SIMM's or DIMM's is not required.

Easy Installation and Deployment

TBarcode/SAPwin is installed with a few mouse clicks as an extension to SAPiPd or SAPsprint. In addition, automatic enterprise-wide deployment or server-based installations are of course supported.

All Barcodes

TBarcode/SAPwin prints more than 80 different barcode symbologies. Linear barcodes as well as 2D barcodes with high data density are generated on demand.

The broad range of barcode symbologies makes TBarcode/SAPwin the ideal add-on for all printing tasks. Virtually all business or industry requirements are covered.

Simple Maintenance

The most common barcodes are already pre-defined by SAP®. As long as only those barcode types are used, no additional configuration efforts are required. Adding or changing barcode print-controls is possible within minutes.

No SAPscript Changes

The use of TBarcode/SAPwin does not force the user to change standard SAPscript® forms.

Highlights

Cost Savings

- **Minimal Cost of Ownership**
The transparent licensing scheme enables customers to put a cost effective bar-coding solution into operation.
- **Absolutely Printer and Hardware Independent**
TBarcode/SAPwin turns virtually all printers available on the market into bar-coding machines. You are not bound to specific printer models or manufacturers anymore.

Operation and Maintenance

- **Easy to Install, Easy to Maintain**
Simply install TBarcode/SAPwin on your computers. No printer upgrade or maintenance is required.
- **SAP R/3 Release Independent**
TBarcode/SAPwin is installed as an extension for SAPiPd or SAPsprint. The release level of the SAP® application server is irrelevant.

Barcodes

- **More than 80 Linear, 2D and Composite Barcodes**
PDF417, MicroPDF, DataMatrix (ECC200), MaxiCode, QR-Code, Codablock, EAN-UCC-Composite, RSS, GS1 DataBar, Aztec, ...
- **Unified Barcode Interface**
TBarcode/SAPwin unifies bar-coding among different printer models. No device-specific configuration is required.
- **Perfect Barcode Quality**
TBarcode/SAPwin generates crystal-clear barcodes with perfect readability.

In World-Wide Use
