

## TROSOFT GmbH

### Secured Electronic Documents

**TROSOFT GmbH, a specialist for secure electronic documents located in Austria, uses TEC-IT know-how for its security product TRODAT SEAL.**

### Electronic Documents

Electronic documents such as contracts or offers must be absolutely forgery-proof, if they are sent by email. TRODAT SEAL from TROSOFT guarantees this security.

With TRODAT SEAL, a forgery-proof seal can be integrated into a document simply by clicking the standard printer symbol from any application (e.g. Microsoft® Word).

### TEC-IT Know How

This is where TEC-IT ([www.tec-it.com](http://www.tec-it.com)) know-how comes into play.

TRODAT SEAL performs like a normal printer - but TEC-IT enables the data to be processed further in order to create the seal. Now, nothing can stand in the way from preparing simple PDFs, with an embedded digital signature to protect against unauthorized and subsequent changes.

### Areas of Application

Anything that had previously required print-out and stamping, can be endorsed with a seal directly on a PC and then be emailed or printed out – including a time stamp. Digital seal logos are typeset within seconds.

The recipient of the document can confirm its authenticity using the check link on the seal without any required additional software.

With the additional software Trodat Digital Pen and a high-sophisticated signature tablet the handwritten signature becomes digital and secures the originals in the most intuitive form.

TRODAT SEAL complies also with legal requirements of the advanced electronic signature.

### More Information regarding TEC-IT

TEC-IT Datenverarbeitung GmbH  
Wagnerstrasse 6  
A-4400 Steyr  
Austria/Europe
