TBarCode/Direct

Bar Code Printing for SAP®
Without Middleware!

SAP® Bar Code Printing without Middleware

For PostScript® compatible Printers
For 3rd Party OMS

Bar Code Printing for SAP® Systems

TBarCode/Direct adds completely platform and printer independent bar code printing to SAP® systems. This works without any additional middleware - with all printers and output management systems compatible with PostScript®.

No Middleware, No Add-Ons

TBarCode/Direct is installed exclusively within the SAP® R/3® or SAP® ERP system and adds bar code printing functionality to all connected printers. Additional software, additional printer upgrades or additional ABAP™ components are void.

TBarCode/Direct is the ideal bar-coding solution without consuming any resources on application or spool-servers. It is best suited for high-availability and/or performance critical output requirements.

Stable Solution

All output devices compatible with PostScript® Level 2 are supported seamlessly. Among them are printers, output management systems (OMS) and fax solutions.

Archiving

The generated bar codes are embedded into the data-stream. No matter when and where archived documents are printed – bar codes are always integrated part of the document. Initializing printers with additional tools is not required: *TBarCode/Direct* works even when printers are switched off between print-jobs.

Supported Bar Codes

TBarCode/Direct supports all linear barcodes in common use as well as the 2D code DataMatrix. Check-digit calculation and human readable text output automated. The solution requires no ABAP™ skills, bar code parameters are adjusted by modifying print-controls only.

References and Test-Drive

Please contact TEC-IT for selected reference installations and a free test-drive.

Highlights

Hassle-Free Operation

- *Central Installation*
  TBarCode/Direct is installed only within SAP® R/3®. A single installation covers all PostScript® compatible output devices connected to the SAP® system.
- *Outstanding Stability*
  TBarCode/Direct generates bar codes without middleware. Bar codes are printed as long printers are on-line.
- *Performance*
  No ABAP is required. No resources are wasted.
- *Archiving*
  Generated bar codes are always part of the printed documents - even when printing archived jobs on external printers.
- *From SAP® R/3® to SAP® ERP 6.0*
  TBarCode/Direct can be used with all SAP systems ranging from R/3® Release 4.6B up to SAP® ERP/ECC 6.0.

Independence

- *No Middleware required*
  Server- or client operating systems are not relevant.
- *Printer independence*
  TBarCode/Direct works with all PostScript® Level 2 compatible output devices.
- *All linear Bar Codes*
  TBarCode/Direct supports all relevant linear bar codes symbologies.
- *2D Bar Code DataMatrix*
  Supported in the new version of TBarCode/Direct.

Costs

- *Transparent Licensing Scheme*
  No user- or device related costs.
